Commissioner for Patents

NON-RESPONSIVE SUBMISSION

The reply filed June 19, 2006 must present arguments pointing out the specific distinctions believed to render the claims, including **any newly presented claims**, patentable over any applied references. If the reply is with respect to an application, a request may be made that objections or requirements as to form not necessary to further consideration of the claims be held in abeyance until allowable subject matter is indicated. The applicant's or patent owner's reply must appear throughout to be a bona fide attempt to advance the application or the reexamination proceeding to final action. A general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section (See 37 CFR § 1.111(b)).
